

TRAINING WITH FIRE AND FLAME

5. - 8. Nov. 2019 | Düsseldorf
Halle 6 | Stand A 25

15. - 20. Juni 2020 | Hannover
Halle 13 | Stand G39

KriBa® THE ORIGINAL TOUGH - SECURE - EFFEKTIVE

www.kriba-trainer.de

KriBa® Training with fire and flame – over 15 years the most reliable firetrainer!

TÜV-Confirmation

Environment-friendly

KriBa - main benefits:

- ✓ made in Germany
- ✓ high quality components
- ✓ 5 years warranty
- ✓ most reliable ignition
- ✓ 10-year availability guarantee
- ✓ modular with 12 simulations
- ✓ for all extinguishing agents
- ✓ challenging training
- ✓ wearfree operating

With KriBa® you trust on the most reliable firetrainer in the market.

KriBa® - versatile and modular operation

Impressive Flames

GERMAN TÜV PROOFED

CONFIRMED BY THE TÜV-NORD

5 YEARS WARRANTY

On stainless steel fire sump, fittings and hoses

QUALITY FOR HEAVIEST DUTY

MADE IN GERMANY

WEARFREE

ABSOLUT RELIABLE IGNITION

Copper made Burner-Ring
with gas outlet under water.
Prevents malfunction

Stable
Transporthandle

30 bar DIN DVGW proven
High pressure hoses.

Level-control

Springloaded safety
shut-off valve

Safety pressure reducer with hose
failure device

KriBa® Firetrainer - mobile and versatile

The KriBa® firetrainer is everywhere, anytime and fast ready for action, because it works completely WITHOUT electric components especially without electric flame ignition.

Companies and authorities have to advise their employees or members of staff regular in the basics of fire prevention. Even with practical lessons how to use extinguish devices.

With KriBa® you advice save, fast, cost-effective and very exemplary.

Reduce the risk of firedamage!

Prevent from fear and uncertainty of handling an extinguish-device.

Train with KriBa®!

KriBa® Basic

KriBa® Base unit for successful extinguish lessons.
KriBa® Basic can be extended with all available modules.

GERMAN TÜV PROOFED
CONFIRMED BY THE TÜV-NORD

5 YEARS WARRANTY
On stainless steel fire sump, fittings and hoses

QUALITY FOR HEAVIEST DUTY
MADE IN GERMANY

WEARFREE
ABSOLUT RELIABLE IGNITION

KriBa® Basic Mobile

Complete with Rolls, level control and transporthandle.

Simulates: Incipient fire and burning liquids.

Order No. 58449 **2.190 €**

Scope of delivery: Firetrainer in stainless steel, Safety-pressure reducer, 3 high pressure hoses, hose failure safety device, safety shut-off and control valve, pilot burner, tools, gloves. System is already pre-assembled.

i	Confirmation	Warranty	Operating resources	Dimensions(L/D/H)	Weight	Material	Extinguish agents	Operating pressure
	TÜV-NORD	5 Years*	40 l Water, 11 kg LPG gas bottle	85 x 68 x 26 cm	27,3 kg	Stainless Steel 2 mm	all	3,5 bar

* On firesump, armatures and hoses

A real challenge even for skilled persons

KriBa® Wastebasket Fire

Simulates: Full developed fire of a waste bin.

Order No. 58409 **780 €**

"Extinguishing a burning waste bin is tricky and needs a special tactic. to prevent for possible injuries. First point ist to suppress the flames with the stream before doing the extinguish attempt in the bin."

i	Dimensions (D/H)	Weight	Material	Modul-Carrier	Extinguish agents	Operating pressure
	Ø 47 x 46 cm	8,6 kg	Stainless Steel/4,0 + 1,5 mm	No need	All	3,5 bar

Absolute secure presentation of fat explosions

KriBa® Fat Fire

Simulates: Presentation fat explosion.

Order No. 58410 **690 €**

"The pan of the KriBa® Fat Fire will be safe attacheched on the KriBa® Wastebasketfire which is used as carrier. Aprox. 100-200ml plantoil will be heated to ignition temperature. This will be done with the full power from the pilot burner. Using the tilting mechanism with the steelrope from a safe distance, the water from the cup causes an impressive pillar of fire"

Dimensions (W/D/H)

50 x 30 x 22 cm

Weight

2,4 kg

Material

Stainless Steel/3,0 + 1,5 mm

Modul-Carrier

Wastebasket Fire

Extinguish agents

No need

Operating pressure

3,5 bar

Impressive and safe presentation of spray can explosions

KriBa® Spray Box

Simulates: Spray can explosion

Order No. 58411 **780 €**

Also order: Spray-Can-Set (page 20)

"Enlightet by the pilotburner the spray can begins to overheat slowly, because of the reduced operation pressure. After aprox. a minute the can bursts with a loud bang. Demonstrates impressive the danger of overheated spray cans."

i	Dimensions (W/D/H)	Weight	Material	Modul-Carrier	Extinguish agents	Operating pressure
	Ø 33 x 31 cm	6,6 kg	Stainless Steel/3,0 + 1,5 mm	Wastebasket Fire	No need	0,5 bar

Stable carrier for technical modules and small pipefiresimulation

KriBa® Carrier

Simulates: Pipefire

Carrier for KriBa® E-Motor Fire, KriBa® Switchgearfire,
KriBa® Flat Screen Fire, KriBa® Tire Fire, KriBa® Pipe &
Fitting Fire

Order No. 58418 **780 €**

*"The simulation of a low pressure pipefire. Extinguished
by the much higher working pressure of a fire exting-
uisher"*

Dimensions (W/D/H)

47 x 47 x 25 cm

Weight

8,6 kg

Material

Stainless Steel/3,0 + 2,0 mm

Modul-Carrier

Wastebasket Fire

Extinguish agents

No need

Operating pressure

3,5 bar

Important extinguish lesson for vehicle operators and firefighters

KriBa® Tire Fire

Simulates: A full developed fire of an vehicle-tire.

Order No. 58441 **1.980 €**

*"The flames rapidly extent over the whole module.
A massive extinguish attempt with fast reactions is
required. An outstanding lesson for truck drivers"*

i	Dimensions (W/D/H)	Weight	Material	Modul-Carrier	Extinguish agents	Operating pressure
	70 x 20 x 76 cm	18,4 kg	Stainless Steel/3,0 +2,0 mm	KriBa® Carrier	All	3,5 bar

Impressive exercise with skilled level

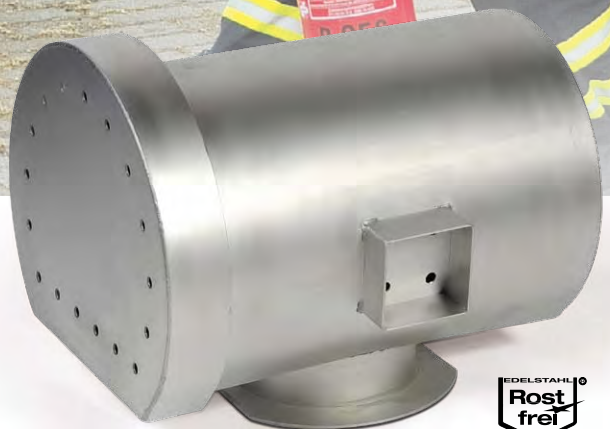

KriBa® E-Motor Fire

Brandsimulation: Simulates: full developed burning e-motor.

Order No. 58417 **780 €**

"Extinguish a burning electromotor needs special skills. Versions with a closed front, like this KriBa® module, needs dexterity and fast reactions. Using CO₂- or foamextinguishers will reduce the level of difficulty for unskilled trainees."

Dimensions (W/D/H)

44 x 35 x 34 cm

Weight

9,1 kg

Material

Stainless Steel/3,0 + 2.0 mm

Modul-Carrier

KriBa® Carrier

Extinguish agents

All

Operating pressure

3,5 bar

Functional modul to train extinguishing as teamwork

KriBa® Switchgear Fire

Simulates: Opening and extinguishing a burning switchcabinet.

Order No. 58414..... **1.680 €**

"Two trainees can do this exercise as team. One, equipped with heatprotective gloves, carefully opens the cabinet-door. The other does the targeted extinguish attack. Of course this can even be solved by a single trainee"

 Dimensions (W/D/H)	Weight	Material	Modul-Carrier	Extinguish agents	Operating pressure
42 x 26 x 66 cm	20,5 kg	Stainless Steel/3,0 + 2,0 mm	KriBa® Carrier	All	3,5 bar

Sucessfull firefighting with a short, focused offence.

KriBa® Flat Screen Fire

Simulates: Clear a flat screen in full-scale fire.

Order No. 58450 **890 €**

*" The flames spread trough the rear side of the case.
The perfect simulation for office workers."*

Dimensions (W/D/H)	Weight	Material	Modul-Carrier	Extinguish agents	Operating pressure
55 x 21 x 51 cm	8 kg	Stainless Steel/3,0 + 1,5 mm	KriBa® Carrier	All	3,5 bar

3 Valve serial control system allows free combination of flame exit!

For skilled members of staff

KriBa® Pipe & Fitting Fire

Simulates: a burning low pressure pipe or a broken flange.

Order No. 58458 **1.480 €**

"This simulation takes advantage of the Venturi principle to be challenging and a alternative to much more expensive simulations which uses lpg evaporators and/or boosters"

i	Dimensions (W/D/H)	Weight	Material	Modul-Carrier	Extinguish agents	Operating pressure
	25 x 50 x 75 cm	14 kg	Stainless Steel/3,0 + 2,0 mm	KriBa® Carrier	All	3,5 bar

Fight the flames with the correct tactic

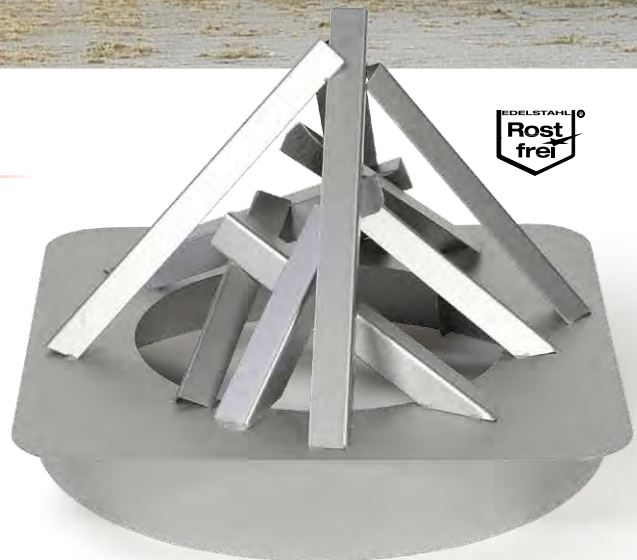

KriBa® Solid Fire

Simulates: Extinguishing a solid fire.

Order No. 58451 **690 €**

"The Solid Fire module will be mostly underestimated. So it fits best to train how difficult it might be to fight a fire with only one extinguisher. After that lesson the squaring of extinguish-power by using two ore more extinguishers can be demonstrated perfectly"

i	Dimensions (W/D/H)	Weight	Material	Modul-Carrier	Extinguish agents	Operating pressure
	47 x 47 x 34 cm	5,1 kg	Stainless Steel/ 1,5 mm	No need	All	3,5 bar

Consider action to prevent
major-loss incidences

KriBa® Gas Cylinder Fire

Simulates: extinguish and close a burning lpg-bottle.

Order No. 58442 **590 €**

"This module trains how to overcome to get closer to the roing flames an shut the valve. Heat protective Gloves are recommended."

KriBa® Safety Hose Set

includes : Safety-pressure reducer, 3 high pressure hoses, hose failure safety device, safety shut-off and control valve, pilot burner, tools, gloves and leak-spray

Order No. 58430 **850 €**

i	Dimensions (W/D/H)	Weight	Required	Material	Extinguish agents	Operating pressure
	30 x 38 x 60 cm	10 kg	KriBa® Safety Hose Set	Steel, painted	All	Max.

KriBa® Supplies

Recommended for complete extinguish exercises

KriBa® Spray-Can-Set

12 TRAINING CANS. SPECIAL ADAPTED FOR THE MODULE KRIBA® SPRAY BOX.

Order No. 58412 **48 €**

5er-bundle. - SAVE 48 €!

Order No. 58412-1 **192 €**

The comfortable KriBa® Universal-Filling-Set

Fill 3 training extinguishers at once with water and pressurized air.

No more Tools required! With this system you can easily and fast fill the extinguishers by connecting the set to the quick-plugs of nearly all modern water-training extinguishers. First you fill up to 2/3 with water (approx. 3 bar shown on the pressure manometer), then switch to the airside and do the pressurizing with air from 12 up to 15 bar. So they are ready for action!

Delivery in a steady synthetic case.

Includes: 3-way ball valve with manometer, pressurehoses, non-return valve on waterside, fillingadaptor for filling up to three devices at once, 3 ball valves.

Additional including various adaptors for watersupply: System GEKA to 1/2" and 1", GEKA to Storz-C and GEKA to system Gardena plug and nozzle.

Order No. 58459 **299 €**

Compressed Air pressure Regulator

- Working pressure 0-20 bar
- Pre pressure 0-300 bar

Used for superfast pressurization of training extinguishers with compressed air cylinders.

Assembled with quick-plug system delivery includes a high pressure hose.

1 | Order No. 58427 **168 €**

Cylinder for compressed air working version, 4 liters volume, regenerated cylinder, TÜV proven and certified. With hoop guard for save transport.

2 | Order No. 30100 **198 €**

High pressure piston compressor

Working pressure up to 15 bar. Lieferung inkl. The high pressure version is required for all modern training extinguish devices which need a working pressure between 12 and 15 bar.

NOTE! Compressor only operates in 50 Hz AC-networks!

3 | Order No. 19700 **598 €**

Jockel Training-Extinguisher

Made in Germany, this device convinces with quality and funktion. With squeeze grip valve and quick-plug system. Easy to fill with the KriBa® Universal-Filling-Set. Maximum workingpressure 15 bar. Additional tire valve. Cylinder with M74 threaded hole, coated inside, Hoseline with quick-plug system and foam nozzle.

Order No. 84699 **6 Liter 115 €**

Order No. 84681 **9 Liter..... 125 €**

KriBa® Transport-Box

Ideal for transport and store your KriBa® and supplies. Lockable Version.

Dimensions: W/D/H 120x 80 x 80 cm

Max. payload: 1500kg

Ground clearance: 10 cm

Material : Steel, Paint RAL 7030

MADE in GERMANY

MEDIEN TECHNİK TRAINING

Mit Freude gut beraten!

Customer-report: KriBa® in duty at Transgourmet

"Practical extinguish exercises are an essential part in our EHS lessons. So the KriBa® firetrainer is in heavy duty, nationwide in all subsidiaries to do the mandatory training in compliance with German ASR 2.2.

The trainers like especially the safe handling and the superior reliability of the fire-training-device. Due to the versatile simulations and impressive level of difficulty, the learning effect is great! With KriBa® we can train realistic and safe the correct use of extinguishers in case of fire."
